

California Comparison for the Disposal of Waste Between 3 Different Products

55 Gallon Drums

These calculations are based on 30 gallons of oil absorbed for disposal.

Floor Dry

30 gallons of oil would require 12 bags of floor dry @	\$5.00 =	\$60.00
This would need 1.5 55 gallon drums to carry it @	\$250.00 =	\$375.50
	Total	\$435.50

Polypropylene

30 Gallons would require 350 pads @	\$0.75=	\$262.50
This amount would require 1.75 55 Gallon drums @	\$250.00 =	\$437.50
	Total	\$700.00

SPHAG SORB

30 Gallons would require 3 bags of SPHAG SORB @	\$29.95 =	\$ 89.85
This amount would require 0.85 55 Gallon drum @	\$250.00 =	\$212.50
	Total	\$302.35

(This results in a 31% savings in the total cost of disposal not just the price of absorbent)
