This product is acceptable for use in inedible product processing areas, non-processing areas, and/or exterior areas of official establishments operating under the Federal meat, poultry, shell egg grading, and egg products inspection programs provided that it is not used to mask odours resulting from insanitary conditions, and that and characteristic odour or fragrance does not penetrate into an edible product area.

Permission for the use of this compound on loading docks and other similar areas is left to the discretion of the inspector in charge of the establishment.

Acceptance of compounds by this department is in no way to be construed as an endorsement of the compounds or of any claims made for them.

If any change is made in the labelling information or formulation, the authorization for use in official plants becomes void immediately.

Sincerely,  
John M. Damaré, Chief  
Compounds and Packaging Branch  
Product Assessment Division
